

GALILEO PROJECT

Problem statement:

The event will be consisting of three rounds.

Round 1:

A quiz will be conducted to screen the participants. This quiz is based mostly on optics and physics of light.

Round 2:

Another quiz will be conducted to screen the participants. This quiz is based on Sky map and a few stellar objects.

Round 3:

The top ten teams from the quizzes will qualify to the third round. The teams have to make a terrestrial telescope with the components and infrastructure provided by the organizers.

Judgement Criteria:

1. Magnification
2. Clarity of the image
3. Overall Design

Rules and Regulations:

1. Each team is allowed to have a maximum of three members.
2. Members of a team can be from different colleges.
3. If a member is found using any other components, other than the ones provided by the organizers, the team shall be disqualified
4. The Organizers reserve all rights to change any of the mentioned rules as they deem fit.
5. Changes in the rules, if any, will be highlighted on the website.
6. In case of any discrepancy, the decision of the organizers shall be final.
